

Snakes and Ladders

You will need a die and a playing piece per person. Put all playing pieces on the start square. Take it in turns to roll the die and move forward the corresponding number of spaces. Make your way around the board paying attention to instructions on the squares.

Beware of the dangerous eels, plastic bags and an oil slick which will slow down your journey. If you are lucky enough to find a turtle they will give you a lift forward. The other sea life is safe and will neither help nor hinder you. The first player to reach the finish square is the winner. Good luck!
